We welcome you to explore the services and the care that **Brighton Health Mart Long Term Care Pharmacy** has offered for over twenty years. Started in 1989, Brighton has a proven history and stable presence in pharmaceutical delivery to over 500 residents throughout Beaver County. With a staff comprised of a family of pharmacists, we hope that you find Brighton to be the best choice for your family.

Family Pharmacy Family Care

If it were my Grandma

Every decision made with Brighton Health Mart LTC Pharmacy starts with our staff putting themselves in the patient's shoes. To understand the patient is to understand their needs and care.

It is not just one person

Although our primary focus are the needs of the patient, we realize that it takes a team to deliver personalized care. Brighton LTC staff is continuously tailoring services to give our families, nurses, physicians, and facility administrators the most valuable information and resources possible. We believe that helping to reduce barriers for the nursing team will ultimately result in increasing the level of care for each patient.

Advanced Technology for Advanced Care

With an eye on the horizon, Brighton has positioned each LTC partner to be prepared to embrace healthcare practices of the future. By investing in advanced pharmacy software, we have access to over 42 eMAR systems and detailed reporting. Our technology reduces waste, prevents errors, and provides more precious time for the facility staff to care for each resident.

Care Based on Your Needs

Pick up or delivery

Daily deliveries are scheduled, but our schedules are certainly based on your needs. Is a medication urgently needed? Expect it right away. Is it Sunday? Drivers are on staff. Christmas Eve? A pharmacist will be at your door. We know that your loyalty to our business does not take a day off. Neither will we.

Safety comes first

Brighton has undergone assessment from the Institute for Safe Medication Practices. It is our focus to provide the safest pharmacy experience to your patients and family. This is never compromised. Never.

Dedicated phone & fax for LTC facility staff

You will never hear a machine pick up, because we pride ourselves in being a real pharmacy for real nurses caring for real patients.

Brighton Health Mart Pharmacy was started by Harry Davis and his wife Linda in 1989. Since the beginning they have driven and maintained the business. With over 40 years of pharmacy experience the family has grown the pharmacy into four locations. Brighton Health Mart has maintained themselves as one of the technology leaders in the pharmacy trade. Their care and professionalism shines through every employee interaction within this facility. At Brighton the focus is to treat every patient, caregiver, and healthcare provider like they are part of the family. This care shines through in the personalized service offered, assuring that patient care is always the top priority. Ethics and dedication are the driving values that Brighton Health Mart continues to maintain.

Medication Management

Choosing the right dispensing method for your facility

Each facility has a unique way of caring for its patients. Brighton Health Mart Pharmacy can offer packaging to fit any facility offering a variety of dispensing options to best suite your facilities needs. Every option makes medication administration more efficient for your resident or family member. The Brighton Health Mart Pharmacy team are experts in both short or standard cycle fills. Dispensing options include: pillow packs, bingo cards and dispill multi-dose.

Pillow Packs

Bingo Cards

Dispill Multi-Dose

Save on Prescriptions

The Brighton Health Mart LTC Pharmacy staff understands how difficult it is to afford medications. Dedicated resources are available to explore the following options:

- PACE enrollment
- Patient Assistance Programs
- Medicare Part D
- Prescription Discount Programs
- Brand/Generic Substitutions
- Donut Hole preparation

Various strategies can help save significant dollars on monthly prescription costs. If you have a family member or resident who needs a little extra help, Brighton is the best choice for offering options to help save on costs while preserving care quality.

Flexible Solutions for Your Facility Needs

Our Long Term Care Pharmacy team provides the same personal service that our retail customers have come to expect. This philosophy extends through every aspect of our pharmacy business.

Customer care

Our team is trained to make a pharmacy switch as easy as possible. We tailor to the facility needs with on site training, specialized cost management assessments, and we are only a call away with our direct phone line and 24/7 emergency pharmacist line.

Continued care

A facility might be temporary. Let Brighton LTC Staff be a part of your continued care as you move forward on your journey in life.

Specialized carts, computers and automation

At Brighton Health Mart Pharmacy we customize the medication carts and computers for the best optimized care. Our LTC team will customize equipment to the facilities needs, whether it be a wood grain medication cart with touch keypad or a hand held tablet running a full suite of software.
